

# Does Cancer Run in *Your Family*?

## Join this free virtual educational program to learn more!

If you or someone in your family has had cancer, you should consider the possibility of cancer running in your family. Hear from a cancer genetic counselor about the risk of developing specific types of cancer based on your family history and ask any questions you may have. *Programs will be conducted concurrently in both English and Spanish.*

### 👉 Learn about:

- Which cancers can be inherited
- How to know if you should get screened for certain cancers
- What to ask your healthcare provider about your risk
- Screening programs for high-risk cancers

Sponsored and facilitated by:
